

QUALITY POLICY

We, at the DOLE, commit to champion the cause of the workers and employers, including their legitimate organizations, towards achieving decent and productive employment for all.

We shall endeavor to help provide an environment to pursue this purpose, invest in our human resources to make them more competent, adaptive, responsive, law-abiding, healthy, and imbued with the sense of purpose to carry out effectively the said cause; continually review and improve our systems and procedures following internationally recognized quality standards to enhance client satisfaction; adhere to the principles of good and democratic governance by exacting integrity, transparency and accountability among members of the organization and by promoting social dialogue; and to actively support the greening program of the government.
